PAIN GUARD FORTÉ

PERQUE PAIN GUARD FORTÉ: NATURE'S SOLUTION TO INFLAMMATION

WHY YOU NEED PAIN GUARD FORTÉ

PERQUE Pain Guard Forté, a remarkable natural formula, is your best nutritional solution for treating pain and inflammation.

Inflammation means repair is blocked or incomplete. **Pain Guard Forté** effectively enhances the body's innate ability to repair itself.

Often, nonsteroidal anti-inflammatory drugs (NSAIDs), such as aspirin or ibuprofen, are used to treat inflammation and pain. However, NSAIDs stop and block the body's efforts to repair itself. Potential NSAID side effects include dizziness, constipation, ringing in the ears, and peptic ulcers. **PERQUE Pain Guard Forté** achieves these benefits in safer and more effective, natural ways.

SUPERIOR CHOICE

Pain Guard Forté provides quercetin dihydrate and OPC, a special safe and effective flavonoid/flavanol combination that encourages the complete repair process and thereby reduces pro-inflammatory enzymes. It also **helps relieve common allergy symptoms**.

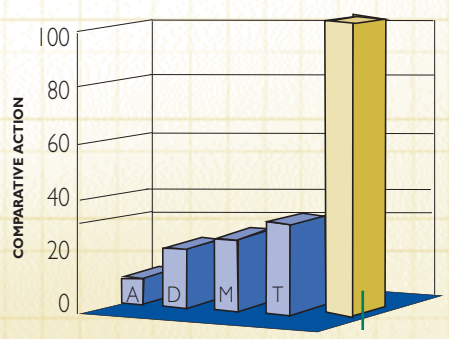

Instead of covering up the pain of inflammation, quercetin dihydrate and OPC support the mechanisms that resolve inflammation by effectively stimulating repair. **Pain Guard Forté** uniquely promotes pain relief by accurately targeting the causes of pain.

UNIQUE COMBINATION

Pain Guard Forté provides the following exclusive benefits:

- Each tablet of **Pain Guard Forté** contains 500 mg. of **quercetin dihydrate, the safest and most easily absorbed form of quercetin**. The body only assimilates about 1% of most forms of quercetin, but it can absorb up to 100% of quercetin dihydrate.
- OPC flavanols (5 mg.), in the optimum ratio (100:1), are present to advance function and repair:
- Many other products use OPCs that are only 2% to 3% soluble. In contrast, **Pain Guard Forté contains the 92%+, fully soluble, bioactive, solvent free form of OPCs**, making it a super-potent formula.
- The ingredients in **Pain Guard Forté** are fully bioavailable, and enzymes, which may be irritating or allergenic, are *not* needed to activate them.

RELATIVE REPAIR POTENCY OF BIOFLAVONOIDS

COMPARATIVE ACTIVITY
PERQUE BioQuercetin Pain Guard Forté
BIOFLAVONOID PRODUCT COMPARISON

ONE TABLET PROVIDES:

Energized Nutrients

Quercetin dihydrate 500 mg.
(water-soluble bioflavonoid)

OPC 85+™ (proanthocyanidins 92% soluble)** 5 mg.
**(U.S. Pat. #4,698,360)

Magnesium (as vegetable stearate)..... 5 mg.
Vegetable fiber 35 mg.
(organic croscarmellose)

Typical Dosage

As a dietary supplement, take one (1) to four (4) tablets daily with food or as directed by your health professional.

Available in bottles of 100 and 250 tablets.

FACTS ON PAIN GUARD FORTÉ

Flavonoids (also called bioflavonoids) are pigments that protect plants from free-radical damage, among other functions. The human body cannot produce these phytochemicals, so we must get them through diet and/or supplementation.

Lower rates of heart disease and cancer are typically found in populations that consume higher levels of flavonoids.

QUERCETIN DIHYDRATE

Quercetin dihydrate is a yellow-green flavonoid that helps reduce allergic and inflammatory responses by promoting repair. It has shown anti-viral and antioxidant effects.

OPCs

Proanthocyanidins that are bound together are collectively called proanthocyanidin oligomers or OPCs. They can be absorbed into cell membranes, protecting against both fat- and water-soluble free radicals. OPCs are also able to cross the blood-brain barrier and protect the brain against free-radical damage.

Because OPCs are so diverse, they deliver synergistic antioxidant benefits with vitamins C or E. In addition, OPCs quench the free radicals involved in inflammation and allergies. They also enhance the effectiveness of the body's natural killer cells and boosts the body's natural anti-cancer defenses.

QUERCETIN AND ESTROGEN

Quercetin dihydrate has another important benefit. Quercetin dihydrate antagonizes potentially harmful forms of estrogen in the body. Thus, quercetin dihydrate may be considered superior to iprflavanol.

THE PERQUE GUARANTEE

Like every other **PERQUE** product, **Pain Guard Forté** comes with a 100% unconditional, money-back guarantee—the strongest guarantee in the natural health industry. This unique guarantee provides the assurance that:

- Every **PERQUE** product provides 100% potency and activity for its entire shelf life.
- Every ingredient used in a **PERQUE** product is pharmaceutical-grade or better.
- Full label disclosure is provided for all **PERQUE** products—no hidden ingredients.
- Every **PERQUE** product is activated with the same transporters that are used by nature and in food, to ensure full bioavailability. The biologically preferred form of an ingredient is always used for enhanced activity.
- Free of wheat/gluten, corn/zein/starch, dairy/casein/whey/milk derivatives, sulfate, yeast, soy, phosphates (other than coenzymes), and preservatives.
- No genetically modified organisms (GMOs).
- 100% vegetarian formula.
- Unique post-production assays and clinical bioassays assure product integrity.

YOUR QUALITY ASSURANCE

Every **PERQUE™** product is produced following or exceeding the FDA's pharmaceutical GMP (good manufacturing practices) regulations.
